

Key Features

Active pixels	8000×RGB/NIR
Pixel size, micron	9
Focal distance, mm	100
Field of view (across the strip), degree	39
Angles for backward/forward channels, degree	16/26
Radiometric resolution, bit	42 (14 bits/band)
Dynamic range, db	72
Line rate, Hz	310-745
Power requirements	DC 28V/18A
Weigh, kg net	67

- Medium Format Oblique Camera
- RGB at 0° (nadir) and 45° (forward/backward)
- Obtain near true ortho and wall building textures simultaneously
- Can be used for orthophoto, mapping, DSM and 3D-modeling.
